

CURRICULUM VITAE

Name: Samia Adam Hamad

Email: hamadsamia37@icloud.com

Phone: +255 714065166

Location: Dar es Salaam, Tanzania

GitHub: github.com/Samiahamad37

Portfolio: github.com/Samiahamad37/my-portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer with experience building web applications, APIs, AI-powered platforms, and data-driven systems. Skilled in Django, Next.js, Node.js, Go, Flutter, and databases such as PostgreSQL and MySQL. Passionate about solving real-world problems through clean architecture and production-ready software.

TECHNICAL SKILLS

Backend: Django, DRF, PHP, Node.js, Go, REST APIs

Frontend: React, Next.js, HTML, CSS, JavaScript, Tailwind CSS

Mobile: Flutter (Dart)

Databases & Data: PostgreSQL, MySQL, InfluxDB, Data Pipelines, API Integration

Tools & Other: Git, Docker, Project Management

PROJECTS

Air Quality Monitoring System

- IoT platform for real-time air quality tracking in Dar es Salaam
- Built REST APIs, sensor data pipelines, and live analytics dashboards
- Live: airquality.tlms.live

ResQ - Emergency Response

- Emergency coordination platform for incident reporting and live dispatch
- Built with Next.js and TypeScript
- Live: frontend-six-plum-67.vercel.app | GitHub: [Samiahamad37/Rescue](https://github.com/Samiahamad37/Rescue)

TruthGuard AI

- AI-powered misinformation detection platform for text, URLs, and media

- Built with Next.js, TypeScript, PostgreSQL, and Prisma
- Live: truthguard-ai-gamma.vercel.app | GitHub: [Samiahamad37/Truthguard-AI](https://github.com/Samiahamad37/Truthguard-AI)

CyberGuard AI Platform

- AI-driven cybersecurity platform for threat detection and security monitoring
- Built with Next.js, TypeScript, AI, and PostgreSQL
- Live: cyberguard-platform-fw6zcr49b-samiahamad37s-projects.vercel.app

Kinfolk (Family Tree Platform)

- Full-stack genealogy app for interactive family trees, photos, stories, and documents
- Built with Next.js, TypeScript, Prisma, and PostgreSQL
- Live: kinfolk-five.vercel.app | GitHub: [Samiahamad37/Kinfolk](https://github.com/Samiahamad37/Kinfolk)

Task Manager System (Django)

- Task management app with authentication, CRUD operations, and PostgreSQL
- GitHub: [Samiahamad37/task-manager](https://github.com/Samiahamad37/task-manager)

Hostel Management System

- PHP/MySQL system for room allocation, tenant records, and fee tracking
- GitHub: [Samiahamad37/Hostel-management-system](https://github.com/Samiahamad37/Hostel-management-system)

Budget Tracker

- Personal finance app for tracking income, expenses, and savings
- GitHub: [Samiahamad37/budget_tracker](https://github.com/Samiahamad37/budget_tracker)

CONFERENCES & PROFESSIONAL EXPOSURE

DjangoCon Arusha 2025 - Django best practices, scalable architecture, and the East African Python community

BIP - Blended Intensive Programme (2026) - International collaboration, cross-cultural teamwork, and agile delivery

EnhanceMind - Women in AI (2026) - AI trends, ethics, and pathways for women in technology leadership

EDUCATION

BSc Information Systems Management, Ardhi University - Graduated 2026
