

SAMIA ADAM HAMAD

Full-Stack Developer

Dar es Salaam, Tanzania | +255 714 065 166 | hamadsamia37@icloud.com | github.com/Samiahamad37 | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with experience building web applications, APIs, AI-powered platforms, and data-driven systems. Skilled in Django, Next.js, Node.js, Go, Flutter, and databases such as PostgreSQL and MySQL. Passionate about solving real-world problems through clean architecture and production-ready software.

TECHNICAL SKILLS

Backend: Django, Django REST Framework, PHP, Node.js, Go, REST APIs

Frontend: React, Next.js, HTML, CSS, JavaScript, Tailwind CSS

Mobile: Flutter (Dart)

Databases & Data: PostgreSQL, MySQL, InfluxDB, Data Pipelines, API Integration

Tools: Git, Docker, Project Management

PROJECTS

Air Quality Monitoring System

- IoT platform for real-time air quality tracking in Dar es Salaam
- Built REST APIs, sensor data pipelines, and live analytics dashboards
- *Live/GitHub: [airquality.tlms.live](#)*

ResQ — Emergency Response

- Emergency coordination platform for incident reporting and live dispatch
- Built with Next.js and TypeScript
- *Live/GitHub: [frontend-six-plum-67.vercel.app](#) | GitHub: [Samiahamad37/Rescue](#)*

TruthGuard AI

- AI-powered misinformation detection platform for text, URLs, and media
- Built with Next.js, TypeScript, PostgreSQL, and Prisma
- *Live/GitHub: [truthguard-ai-gamma.vercel.app](#) | GitHub: [Samiahamad37/Truthguard-AI](#)*

CyberGuard AI Platform

- AI-driven cybersecurity platform for threat detection and security monitoring
- Built with Next.js, TypeScript, AI, and PostgreSQL
- *Live/GitHub: [cyberguard-platform-fw6zcr49b-samiahamad37s-projects.vercel.app](#)*

Kinfolk (Family Tree Platform)

- Full-stack genealogy app for interactive family trees, photos, stories, and documents
- Built with Next.js, TypeScript, Prisma, and PostgreSQL
- *Live/GitHub: [kinfolk-five.vercel.app](#) | GitHub: [Samiahamad37/Kinfolk](#)*

Task Manager System (Django)

- Task management app with authentication, CRUD operations, and PostgreSQL
- *Live/GitHub: [GitHub: Samiahamad37/task-manager](#)*

Hostel Management System

- PHP/MySQL system for room allocation, tenant records, and fee tracking
- *Live/GitHub: [GitHub: Samiahamad37/Hostel-management-system](#)*

Budget Tracker

- Personal finance app for tracking income, expenses, and savings
- *Live/GitHub: [GitHub: Samiahamad37/budget_tracker](#)*

CONFERENCES & PROFESSIONAL EXPOSURE

- DjangoCon Arusha 2025 — Django best practices, scalable architecture, and the East African Python community
- Blended Intensive Programme (BIP), 2026 — International collaboration, cross-cultural teamwork, and agile delivery
- EnhanceMind — Women in AI, 2026 — AI trends, ethics, and pathways for women in technology leadership

EDUCATION

BSc, Information Systems Management — Ardhi University	Graduated 2026
• <i>Completed academic fieldwork as part of coursework, 2023 – 2025</i>	
Advanced Certificate of Secondary Education — Kondoa Girls High School	2021 – 2023
Certificate of Secondary Education — Mihima Secondary School	2017 – 2020
